INTELLECTUAL PROPERTY CLAUSES for

1. "Off-the-Shelf" Item Supply Subcontracts; and
2. Non-R&D Service Subcontracts where technical data are **not** expected to be first produced

(NOT TO BE USED IF SUBCONTRACT IS FOR
"COMMERCIAL ITEMS" AND INCLUDES THE FL-200)

CONTENTS

1. Authorization and Consent
2. Patent Indemnity
3. Notice and Assistance Regarding Patent
and Copyright Infringement
4. Refund of Royalties

1. AUTHORIZATION AND CONSENT (48 C.F.R. 52.227-1)

- (a) The Government authorizes and consents to all use and manufacture, in performing this subcontract or any lower-tier sub-subcontract, of any invention described in and covered by a United States patent (1) embodied in the structure or composition of any article the delivery of which is accepted by the Government or Fermilab under this subcontract or (2) used in machinery, tools, or methods whose use necessarily results from compliance by the Subcontractor or any lower-tier sub-subcontractor with (i) specifications or written provisions forming a part of this subcontract or (ii) specific written instructions given by Fermilab or the Department Contracting Officer directing the manner of performance. The entire liability to the Government for infringement of a patent of the United States shall be determined solely by the provisions of the indemnity clause, if any, included in this subcontract or any lower-tier sub-subcontract hereunder, and the Government assumes liability for all other infringement to the extent of the authorization and consent hereinabove granted.
- (b) The Subcontractor agrees to include, and require inclusion of, this clause, suitably modified to identify the parties, in all lower-tier sub-subcontracts for supplies or services (including construction, architect-engineer services, and materials, supplies, models, samples, and design or testing services expected to exceed the simplified acquisition threshold at Federal Acquisition Regulation (FAR) 2.101); however, omission of this clause from any lower-tier sub-subcontract, including those at or below the simplified acquisition threshold, does not affect this authorization and consent.

2. PATENT INDEMNITY (48 C.F.R. 52.227-3)

- (a) The Subcontractor shall indemnify Fermilab, the Government, and their officers, agents, and employees against liability, including costs, for infringement of any United States patent (except a patent issued upon an application that is now or may hereafter be withheld from issue pursuant to a Secrecy Order under 35 U.S.C. 181) arising out of the manufacture or delivery of supplies, the performance of services, or the construction, alteration, modification, or repair of real property (hereinafter referred to as "construction work") under this subcontract, or out of the use or disposal by or for the account of the Government or Fermilab of such supplies or construction work.
- (b) This indemnity shall not apply unless the Subcontractor shall have been informed as soon as practicable by the Government or Fermilab of the suit or action alleging such infringement and shall have been given such

opportunity as is afforded by applicable laws, rules, or regulations to participate in its defense. Further, this indemnity shall not apply to (1) an infringement resulting from compliance with specific written instructions of Fermilab or the Department Contracting Officer directing a change in the supplies to be delivered or in the materials or equipment to be used, or directing a manner of performance of the subcontract not normally used by the Subcontractor, (2) an infringement resulting from addition to or change in supplies or components furnished or construction work performed that was made subsequent to delivery or performance, or (3) a claimed infringement that is unreasonably settled without the consent of the Subcontractor, unless required by final decree of a court of competent jurisdiction.

3. NOTICE AND ASSISTANCE REGARDING PATENT AND COPYRIGHT INFRINGEMENT
(48 C.F.R. 52.227-2)

- (a) The Subcontractor shall report to the Department Contracting Officer through Fermilab promptly and in reasonable written detail, each notice or claim of patent or copyright infringement based on the performance of this subcontract of which the Subcontractor has knowledge.
- (b) In the event of any claim or suit against Fermilab or the Government on account of any patent or copyright infringement arising out of the performance of this subcontract or out of the use of any supplies furnished or work or services performed under this subcontract, the Subcontractor shall furnish to Fermilab or the Government, when requested by Fermilab or the Department Contracting Officer, all evidence and information in possession of the Subcontractor pertaining to such suit or claim. Such evidence and information shall be furnished at the expense of the Government except where the Subcontractor has agreed to indemnify the Government or Fermilab.
- (c) The Subcontractor agrees to include, and require inclusion of, this clause in all lower-tier sub-subcontracts for supplies or services (including construction and architect-engineer sub-subcontracts and those for material, supplies, models, samples, or design or testing services) expected to exceed the simplified acquisition threshold at FAR 2.101.

4. REFUND OF ROYALTIES (48 C.F.R. 952.227-9)

- (a) This clause applies only if the subcontract price includes certain amounts for royalties payable by the Subcontractor or lower-tier sub-subcontractors or both.
- (b) The term "royalties" as used in this clause refers to any costs or charges in the nature of royalties, license fees, patent or license amortization costs, or the like, for the use of or for rights in patents and patent applications in connection with performing this subcontract or any lower-tier subcontract hereunder. The term also includes any costs or charges associated with the access to, use of, or other right pertaining to data that is represented to be proprietary and is related to the performance of this contract or the copying of such data or data that is copyrighted.
- (c) The Subcontractor shall furnish to Fermilab or the DOE Contracting Officer when directed by Fermilab, before final payment under this subcontract, a statement of royalties paid or required to be paid in connection with performing this subcontract and lower-tier subcontracts hereunder together with the reasons.
- (d) The Subcontractor will be compensated for royalties reported under paragraph (c) of this clause, only to the extent that such royalties were included in the subcontract price and are determined by Fermilab to be properly chargeable to the Government and allocable to the subcontract. To the extent that any royalties that are included in the subcontract price are not, in fact, paid by the Subcontractor or are determined by Fermilab not to be properly chargeable to the Government and allocable to the subcontract, the subcontract price shall be reduced. Repayment or credit to Fermilab or the Government shall be made as Fermilab directs. The approval by Fermilab of any individual payments or royalties shall not prevent the Government from contesting at any time the enforceability, validity, scope of, or title to, any patent or the proprietary nature of data pursuant to which a royalty or other payment is to be or has been made.
- (e) If, at any time within 3 years after final payment under this subcontract, the Subcontractor for any reason is relieved in whole or in part from the payment of the royalties included in the final subcontract price as adjusted pursuant to paragraph (d) of this clause, the Subcontractor shall promptly notify Fermilab or the DOE Contracting Officer of that fact and shall reimburse Fermilab or the Government in a corresponding amount.
- (f) The substance of this clause, including this paragraph (f), shall be included in any sub-subcontract in which the amount of royalties reported during negotiation of the sub-subcontract exceeds \$250.
